### PPE DEFENDS

## Graphene Mask and Mask Sanitiser Amenity Pack

Infection control does not have to be complicated. It just needs proven, certified products that perform efficiently and safely. **PPE Defends** address these requirements through the application of technology and proven science with our complete range of mask and sanitiser products.

Our Graphene masks have been tested in SGS certified laboratories together with Hypochlorous Sanitiser as an anti-viral cleanser. As a result the masks can be used over 10 cycles of wear and sanitisation without losing efficacy. Our **Amenity pack** provides one months supply of masks and sanitiser at an affordable price.

Hypochlorous acid (HOCl) is a powerful weapon in the fight against Covid-19, all viruses and Bacteria. It is **100 percent** safe for humans. Chemical free, **non-toxic** and all-natural. Produced by the body in small amounts, it forms an important part of the body's natural immune system.

**PPE Defends** Freedom series Graphene Masks provide enhanced protection minimising the spread of viral infection. A robust four-ply design enhanced with an outer layer utilising Polygrene.™ Polygrene is an advanced Graphene-based polymer uniquely boosting filtration increasing anti-viral efficiency.
